

## SYSTEM LAB FURNITURE

# HIGH-QUALITY STANDARD CABINETS

The concept of our system lab furniture is founded on 4 corner stones:

### QUALITY

Criteria for our furniture are based on the exacting requirements of industry and laboratories. The combination of high-quality materials and carefully thought-out construction guarantees stability and lasting quality.

### FLEXIBILITY

The QATM-system provides a customized and flexible platform for personal workspaces, entire buildings, and everything in between.

### FUNCTIONALITY

Perfect fit with QATM equipment and their installation. Archiving solutions and covered cable guides ensure a well-organized and efficient workplace.

### DESIGN

Clean lines and high-quality materials create a fascinating, timeless and homogeneous style.

## HIGHLIGHTS

Ideal basis for placing QATM benchtop machines

Sturdy, corrosion-free construction, powder-coated aluminum housing

Fronts and worktops made of water-resistant HPL solid material

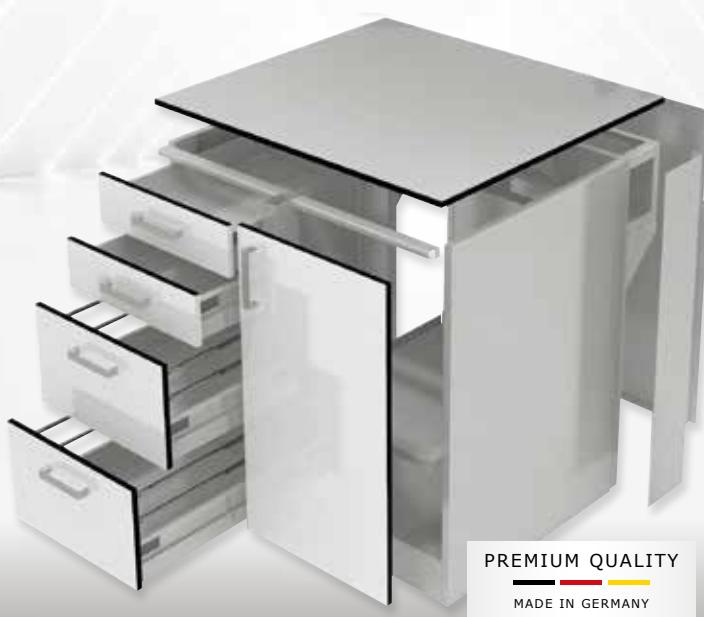

Ideal for integration of recirculation cooling system or settling tank
